NATURE OF THE SUIT

1. This is a claim for patent infringement arising under the patent laws of the United States, Title 35 of the United States Code.

PARTIES

2. Plaintiff Blue Spike, LLC is a Texas limited liability company and has its headquarters and principal place of business at 1820 Shiloh Road, Suite 1201-C, Tyler, Texas 75703. Blue Spike, LLC is the assignee of the Patent-in-Suit, and has ownership of all substantial rights in the asserted Patents, including the rights to grant sublicenses, to exclude others from using it, and to sue and obtain damages and other relief for past and future acts of patent infringement.

3. Defendant Arbitron (acquired by Nielsen in 2015) is located at 13355 Noel Rd # 1120, Dallas, TX 75240.

4. Defendant Nielsen Media Research is located at 1717 Main St, Dallas, TX 75201

5. Defendants Nielsen Holdings N.V. and The Nielsen Company (US) LLC have their principal place of business at 85 Broad Street, New York, New York 10004-2434. The latter claims to be “a world leader in market research and consumer information.”

6. For purposes of this Complaint, Blue Spike will refer to all The Nielsen entities as “Defendant” or “Nielsen.”

JURISDICTION AND VENUE

7. This lawsuit is a civil action for patent infringement arising under the patent laws of the United States, 35 U.S.C. §101 *et seq.* The Court has subject-matter jurisdiction pursuant to 28 U.S.C. §§1331, 1332, 1338(a), and 1367.

8. The Court has personal jurisdiction over Defendant for at least four reasons: (1) Defendant has committed acts of patent infringement and contributed to and induced acts of patent infringement by others in this District and elsewhere in Texas; (2) Defendant regularly does business or solicits business in the District and in Texas;

(3) Defendant engages in other persistent courses of conduct and derives substantial revenue from products and/or services provided to individuals in the District and in Texas; and (4) Defendant has purposefully established substantial, systematic, and continuous contacts with the District and should reasonably expect to be haled into court here.

9. On information and belief Nielsen monitors audio communications with patrons residing in the Eastern District of Texas, including their use of Facebook.

10. Thus, the Court's exercise of jurisdiction over Defendant will not offend traditional notions of fair play and substantial justice.

11. Venue is proper in this judicial district under 28 U.S.C. §§1391(b)–(c) and 1400(b) because Defendant does business in the State of Texas, Defendant has committed acts of infringement in Texas and in the District, a substantial part of the events or omissions giving rise to Blue Spike's injury happened in the District, and Defendant is subject to personal jurisdiction in the District.

THE ACCUSED PRODUCTS AND SERVICES

12. Defendant designs, develops, employs, and/or manufactures a digital watermarking technology that encodes watermarks contained within audio content, the "Accused Products," which infringe one or more claims of the Patents-in-Suit.

13. Defendant has not obtained a license for any of Blue Spike's patented technologies.

14. Yet Defendant's Accused Products are using methods, devices, and systems taught by Blue Spike's Patents-in-Suit.

COUNT 1:

Infringement of **U.S. Patent 5,889,868 titled “Optimization methods for the insertion, protection, and detection of digital watermarks in digitized data”**

15. Blue Spike incorporates by reference the allegations in paragraphs above.

16. The '868 Patent is valid, is enforceable, and was duly and legally issued from the United States Patent and Trademark Office. It has a filing date of July 2, 1996.

17. Without a license or permission from Blue Spike, Defendant has infringed and continues to infringe on one or more claims of the '868 Patent—directly, contributorily, or by inducement—by importing, making, using, offering for sale, or selling products and devices that embody the patented invention, including, without limitation, one or more of the Accused Products, in violation of 35 U.S.C. §271.

18. Defendant has been and now is indirectly infringing by way of inducing infringement by others and/or contributing to the infringement by others of the '868 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, making, using, importing, offering for sale, and/or selling, without license or authority, products for use in systems that fall within the scope of one or more claims of the '868 Patent. Such products include, without limitation, one or more of the Accused Products. Such products have no substantial non-infringing uses and are for use in systems that infringe the '868 Patent. By making, using, importing offering for sale, and/or selling such products, Defendant injured Blue Spike and is thus liable to Blue Spike for infringement of the '868 Patent under 35 U.S.C. § 271. Those whom Defendant induces to infringe and/or to whose infringement Defendant contributes are the end users of the Accused Products. Defendant had knowledge of the '868 Patent at least as early as

the service of this complaint and is thus liable for infringement of one or more claims of the '868 Patent by actively inducing infringement and/or is liable as contributory infringer of one or more claims of the '868 Patent under 35 U.S.C. §271.

19. Defendant's acts of infringement of the '868 Patent have caused damage to Blue Spike, and Blue Spike is entitled to recover from Defendant the damages sustained as a result of Defendant's wrongful acts in an amount subject to proof at trial pursuant to 35 U.S.C. §271. Defendant's infringement of Blue Spike's exclusive rights under the '868 Patent will continue to damage Blue Spike, causing it irreparable harm, for which there is no adequate remedy at law, warranting an injunction from the Court.

20. On information and belief, the infringement of the Patent-in-Suit by Defendant has been willful and continues to be willful. Defendant had knowledge of the Patent-in-Suit, including but not limited to at least one or more of the following:

- a. Through Arbitron's interference proceedings with inventor Scott Moskowitz and/or knowledge of such proceedings by Arbitron's competitors in the watermarking field.
- b. Citations to Blue Spike's patents.
- c. Attendance by Arbitron employees at trade shows where Dice Co. or Blue Spike was also present.
- d. Through Defendant's acquisition of Arbitron and the related due diligence into the valuation of Arbitron's intellectual property in the field of the digital watermarking.
- e. Through Defendant's research and development efforts of Nielsen to provide audio watermarking technology.

- f. Through Defendants' filing and service of a prior Complaint related to separate Blue Spike patents in the field of signal processing technology.
21. On information and belief, Defendant has at least had constructive notice of the '868 Patent by operation of law.

Those whom Defendant induces to infringe and/or to whose infringement Defendant contributes are the end users of the Accused Products. Defendant had knowledge of the '017 Patent at least as early as the service of this complaint and is thus liable for infringement of one or more claims of the '017 Patent by actively inducing infringement and/or is liable as contributory infringer of one or more claims of the '017 Patent under 35 U.S.C. §271.

Defendant's acts of infringement of the '330 Patent have caused damage to Blue Spike, and Blue Spike is entitled to recover from Defendant the damages sustained as a result of Defendant's wrongful acts in an amount subject to proof at trial pursuant to 35 U.S.C. §271. Defendant's infringement of Blue Spike's exclusive rights under the '330 Patent will continue to damage Blue Spike, causing it irreparable harm, for which there is no adequate remedy at law, warranting an injunction from the Court.

69. On information and belief, the infringement of the Patent-in-Suit by Defendant has been willful and continues to be willful. Defendant had knowledge of the Patent-in-Suit, including but not limited to at least one or more of the following:

- a. Through Arbitron's interference proceedings with inventor Scott Moskowitz and/or knowledge of such proceedings by Arbitron's competitors in the watermarking field.
- b. Citations to Blue Spike's patents.
- c. Attendance by Arbitron employees at trade shows where Dice Co. or Blue Spike was also present.
- d. Through Defendant's acquisition of Arbitron and the related due diligence into the valuation of Arbitron's intellectual property in the field of the digital watermarking.
- e. Through Defendant's research and development efforts of Nielsen to provide audio watermarking technology.
- f. Through Defendants' filing and service of a prior Complaint related to separate Blue Spike patents in the field of signal processing technology.

70. On information and belief, Defendant has at least had constructive notice of the '330 Patent by operation of law.

COUNT 9:

Infringement of **U.S. Patent 8,225,099** titled **"Linear predictive coding
implementation of digital watermarks"**

71. Blue Spike incorporates by reference the allegations in paragraphs above.

72. The '099 Patent is valid, is enforceable, and was duly and legally issued from the United States Patent and Trademark Office.

73. Without a license or permission from Blue Spike, Defendant has infringed and continues to infringe on one or more claims of the '099 Patent—directly, contributorily, or by inducement—by importing, making, using, offering for sale, or selling products and devices that embody the patented invention, including, without limitation, one or more of the Accused Products, in violation of 35 U.S.C. §271.

74. Defendant has been and now is indirectly infringing by way of inducing infringement by others and/or contributing to the infringement by others of the '099 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, making, using, importing, offering for sale, and/or selling, without license or authority, products for use in systems that fall within the scope of one or more claims of the '099 Patent. Such products include, without limitation, one or more of the Accused Products. Such products have no substantial non-infringing uses and are for use in systems that infringe the '099 Patent. By making, using, importing offering for sale, and/or selling such products, Defendant injured Blue Spike and is thus liable to Blue Spike for infringement of the '099 Patent under 35 U.S.C. § 271. Those whom Defendant induces to infringe and/or to whose infringement Defendant contributes are the end users of the Accused Products. Defendant had knowledge of the '099 Patent at least as early as the service of this complaint and is thus liable for infringement of one or more claims of the '099 Patent by actively inducing infringement and/or is liable as contributory infringer of one or more claims of the '099 Patent under 35 U.S.C. §271.

75. Defendant's acts of infringement of the '099 Patent have caused damage to Blue Spike, and Blue Spike is entitled to recover from Defendant the damages sustained as a result of Defendant's wrongful acts in an amount subject to proof at trial pursuant to 35 U.S.C. §271.
